

TABLE OF CONTENTS, JOURNAL OF APPLIED FUNCTIONAL ANALYSIS,
VOLUME 2, NO.1, 2007

Preface.....v

Growth of solutions of complex non-homogeneous linear differential equations, 1
B. Belaidi,

On closeness of a- and b-points of arbitrary polynomials,.....13
G. Barsegian, F. Arturo, Le Dung Trang,

Regular singular holonomic systems of differential equations with given.....21
Integrals, A.G. Aleksandrov, A.N. Kuznetsov,

Basic boundary value problems in complex analysis, H. Begehr,.....57

A note on a boundary value problem for the Bitsadze equation in.....73
Wiener-type domains, A.O. Celebi,

To elliptic boundary value problems on the upper half-plane,.....83
A. Soldatov.

TABLE OF CONTENTS, JOURNAL OF APPLIED FUNCTIONAL ANALYSIS,
VOLUME 2, NO.2, 2007

Preface.....,v

Modified doubly-periodic second fundamental complete plane strain...99
problem with relative displacements, X. Li,

Exact solution of the R-linear problem for a disk in a class of doubly,..115
periodic functions, V. Mityushev,

Holomorphic curves and Riemann-Hilbert problems in loop spaces,....129
G. Khimshiashvili, E. Wegert,

Haseman boundary value problem for bianalytic functions with different
shifts on the unit circumference, Y. Wang, J. Du,.....147

Complex Hele-Shaw model. Local solvability for a doubly connected
Domain, S.V. Rogosin, T.S. Vaitekhovich,.....159

Computing porosity of cancellous bone using ultrasonic waves,.....185
R.P. Gilbert, Y. Xu, S. Zhang.

TABLE OF CONTENTS,JOURNAL OF APPLIED FUNCTIONAL ANALYSIS,
VOLUME 2,NO.3,2007

Perturbation problems in potential theory, a functional analytic
Approach,M. Lanza de Cristoforis,.....197

The optimization of fixed point methods, S. Graubner,.....223

On decompositions of the complex quaternion valued Hilbert space related
to the Helmholtz equation,H.T.N. Vu,.....233

Cauchy-Pompeiu representation formulas in Clifford analysis,.....255
H. Otto,

A revised higher order Cauchy-Pompeiu formula in Clifford analysis
and its application, Z. Zhang,.....269

A general higher order integral representation formula for polydomains,
A. Krausz,.....279

Higher order Green function in the upper half plane,.....293
E. Gaertner.

TABLE OF CONTENTS,JOURNAL OF APPLIED FUNCTIONAL ANALYSIS,
VOLUME 2,NO.4,2007

Preface A,.....307

The Path-Connectivity of s-Elementary Tight Frame Wavelets,.....309
Xingde Dai and Yuanan Diao,

Universal Lower Bounds for Blockwise-Shrinkage Wavelet estimation of a spike,....317
Sam Efromovich,

Construction of Biorthogonal B-spline Type Wavelet Sequences with Certain.....339
Regularities,Tian-Xiao He,

Frame-based nonuniform sampling in Paley-Wiener spaces,J.A.Hogan,..... .361

Preface B,.....	401
The construction of d-dimensional multiresolution analysis frames,..... John J. Benedetto, Juan R. Romero	403
Two Problems from Industry and Their Solutions Via Harmonic and Complex Analysis, Stephen D. Casey,.....	427
Multiscale approximation for eigenvalue problems of Fredholm integral equations,.... En-Bing Lin,	461
On Numerical Aspects of a Biorthogonal Wavelet Basis,..... Xiaoping Shen.	471
